

French

We will be learning the names of different fruits and vegetables. By the end of the topic we will be able to ask and answer questions about different food that we like/dislike. We will also be able to say, read and write numbers 0-20.

Maths

Y3

Number (Fractions)
Measurement (Mass & Time)

Y4

Number (Decimals & Fractions)
Measurement (Money & Time)
Statistics

Science

In Science we will be learning about the life cycle and function of plants, how water is transported within plants and the pollination process.

RE

We will be learning about Christianity, Islam and Sikh Dharma.

PSHE

We will be learning about our responsibilities, rights and duties. To research and discuss topical issues, problems and events in the wider world.

Summer 1 Celebrating World Religions Sycamore Class

PE

We will be learning the skills and game rules for Cricket and Hockey.

Art

In Art we will be planning, designing, making 3D models with a cross curricular link to RE.

English

The books we are focusing on this half term will be...
Manfish by Jennifer Berne
The Journey by Francesca Sanna

Music

On Fridays we will have music lessons with a specialist music teacher. We will be learning to play tuned percussion or a melodic instrument using a small range of dot notation.
We will also be improvising and composing music.
